

# Undergraduate Maternal Health Research Program

August 2025 – April 2026

## Overview:

The MHREACH<sup>TSU</sup> Undergraduate Maternal Health Research Program aims to foster and enhance undergraduate student research for maternal health through mentoring using integrated research and a multidisciplinary approach. The MHREACH<sup>TSU</sup> program is a structured student-centered program encompassing leadership, education, research advancement, and community engagement and outreach. TSU students will work collaboratively with faculty, peer graduate mentors, and postdoctoral fellows/research scientists.

## Application Requirements:

- TSU Undergraduate Student (any major)
- Minimum of 2.75 GPA on a 4.0 point scale
- Updated CV/Resume
- TSU Faculty Reference
- Commit at least 3 -5 hours per week for research, lectures, and other required program activities
