# Maternal Health High School Summer Research Program

June 9<sup>th</sup> – August 1<sup>st</sup>, 2025  
8-Week Program

## Program Components

8-week summer research program for high school students to learn more about maternal health research.

Attend virtual training each week on maternal health research.

Match with and receive mentoring from faculty members and graduate students to take part in community projects.

Students will develop their own literature review research project and present at the Maternal Health Summer Seminar in August.

## Application Requirements

Expected Participation: 8-hr per week (mostly virtual).

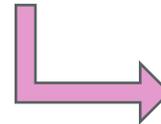

Students must be entering high school (9<sup>th</sup> – 12<sup>th</sup> grade).

Letter of Recommendation from High School Teacher.

High School Transcript.

## Apply

To apply for, fill out the form at <https://forms.gle/vmmeTkS6vFa91rKXA>, scan the QR code, or email MHREACH for application instructions.

## Deadline

Friday, May 2<sup>nd</sup> at 5pm
